

Corporate Analysis: iX Biopharma Ltd. (SGX: 42C)

COMPANY SNAPSHOT

Name: iX Biopharma Ltd. **Ticker:** SGX: 42C **Fiscal Year:** FY2025-9M2026

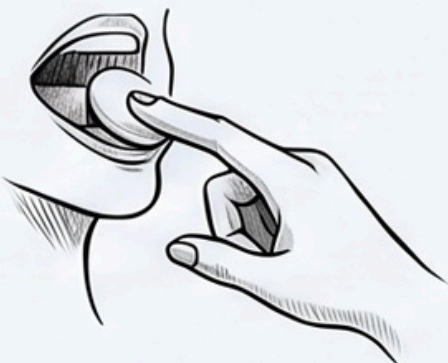

A specialty pharmaceutical company utilizing proprietary sublingual wafer technology for drug delivery.

OPERATIONAL PROFILE & STRATEGIC PIVOT

Proprietary “WaferiX” Drug-Delivery Platform

The company specializes in sublingual “wafer” products for pharmaceuticals and nutraceuticals.

Shift Toward US Government Contracting

A US\$40.95m US Department of Defense contract for Wafermine is now the primary catalyst.

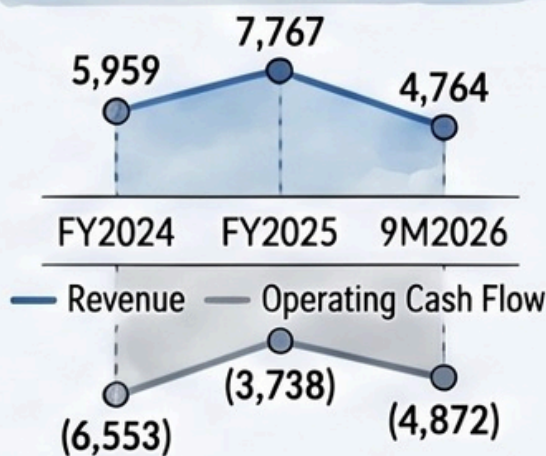

Transitioning Business Segments

Management is pivoting from declining Australian cannabis revenue to US compounding and nutraceuticals.

FINANCIAL HEALTH & RISK EXPOSURE

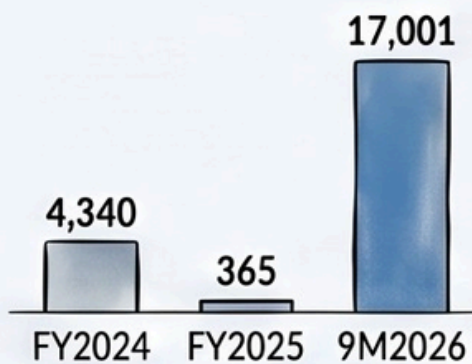

Financial Performance: Reported vs. Cash Flow

Persistent Losses Despite Revenue Uptick

S\$10.1m Loss on S\$7.8m Revenue (FY2025)

Capital Structure & Dilution

Financing-Driven Survival and Dilution

Recent recapitalization increased the share count by 35% in under two years.

Non-Operational Influences

Non-Operational Profit Support

Reported loss narrowing was significantly aided by a non-cash S\$2.33m unrealized currency gain.

Accounting and Disclosure Observations

- **Operating Burn:** Examine if profit is supported by operating cash flow.
- **Quality of Earnings:** Significant one-off items or FX gains can mask underlying operational performance.

Key Risks

- **Binary Outcomes:** Investment case rests heavily on regulatory and contract execution milestones.
- **Equity Dependency:** Historically relied on capital markets rather than operations for liquidity.
